A FRIENDLY REMINDER...

We are in the process of updating and clarifying the Highly Erodible Plans. We are very happy with the response we've had so far. Half of the landowners with highly erodible fields have their plans completed. However, half of the landowners still need their plans looked at. We need the plans completed by the end of the year. If you have highly erodible fields and have not reviewed them with us in the last couple of months, please contact the office at 291-2300 to have your plans updated.
